

STEFAN-TEODOR IANCU

Student at Facultatea de Informatica Iasi

+40 754548577 • stefaniancu46@gmail.com • <https://www.linkedin.com/in/stefan-teodor-iancu-152a6a284/>
• <https://iancustefanteodor.me> • <https://github.com/iancustefan26>

Skills

C++ • x86 Assembly • Python • Git • Data Structures • Algorithms & Analysis • JavaScript • HTML • CSS

Education

Universitatea „Alexandru Ioan Cuza” din Iași

Bachelor's degree, Computer Science

09/2023 - 07/2026

- **Successfully delivered team projects** for courses like *Introduction to Programming*, learned more about *Data Structures, Algorithms*, and *Computer Architecture (x86 Assembly)*.
- **Volunteered** in ASII

Liceul Teoretic “Mihail Kogalniceanu” Vaslui

Mathematics and Computer Science

07/2019 - 06/2023

- Participated in computer science competitions in which I improved my algorithmic thinking, the ability to work under pressure and teamwork skills.

Projects

File Maestro

File Maestro, a user-friendly file management tool crafted for Windows users in C++, offers a seamless experience for navigating, organizing, and exploring computer files. Its advanced functionalities include searching, changing directories and paths, deleting, copying files, and customizable theme modes, along with sorting capabilities.

- <https://github.com/iancustefan26/File-Maestro>

Personal Website

I designed a personal website as a showcase of my proficiency in web development, employing HTML, CSS, and JavaScript. The website serves as a digital representation of my skills and creative endeavors. Through this platform, you can gain insights into my journey, explore my skill set, and review my portfolio. I am open to connections and collaborations for exploring new opportunities.

- <https://iancustefanteodor.me>

File Organizer

I've created a program in pure Python for Windows and MacOS users called File Organizer. It's a straightforward project that offers a simple way to keep your computer files clean and well-organized by sorting them into specific folders based on their extension.

Summary

A Computer Science student with a passion for programming, I am enthusiastic about learning new technologies and diving into the world of software development. Over the past few years, I have dedicated myself to working on projects to acquire knowledge mainly in C++ and Python development, but I've also gained experience in other technologies, such as designing responsive websites. I am eager to expand my skills and contribute to the dynamic field of technology.

Achievements

Achieved a ranking in the top 3% during the admission process for the Computer Science Faculty at Iasi.

Advanced to the final stage of the Mate-Info UB Programming Competition in Bucharest 2023.

Achieved a PC Informatics Operator certification and received a diploma during high school.
