IANCU STEFAN-TEODOR

COMPUTER SCIENCE STUDENT & SOFTWARE ENGINEER

SOFTWARE SKILLS

- C/C++
- Linux Developement
- OOP
- x86 Assembly
- Computer Architecture
- Python
- Git
- Data Structures & Algorithms
- JavaScript
- HTML
- CSS

SOFT SKILLS

- Communication Skills
- Teamwork and Collaboration
- Project Management
- Enthusiasm for Learning

PROJECTS

File Maestro (Total Commander)

- *C++*

I created **File Maestro**, a user-friendly f*ile management tool* for Windows using **C++**. The application **has the purpose to** seamlessly navigate, organize, and explore computer files, offering advanced features like search, sorting capabilities, directory management, file operations, and customizable themes.

https://github.com/iancustefan26/File-Maestro

Personal Website Portfolio

- JavaScript
- HTML
- CSS

I crafted a **personal website** showcasing my web development skills using **HTML, CSS, and JavaScript**. This platform offers insights into my journey, explores my **skill set**, and features my portfolio.

https://github.com/iancustefan26/Personal-Website

https://iancustefanteodor.tech/

File Organizer

- Python

I developed **File Organizer**, a **pure Python** script for *Windows* and *MacOS* users. It simplifies file management by automatically sorting files into specific folders based on their extensions.

EDUCATION HISTORY

Bachelor's degree, Computer Science
University „Alexandru Ioan Cuza" from Iasi
09/2023 - 07/2026
- Delivered **team projects**
- Learned more about **Software & Computer Architecture**
- **Volunteered** in **ASII**
  -I collaborated on organizing the FII Code hackathon with a team of volunteers.

Mathematics and Computer Science Highschool
Theoretical Highschool "Mihail Kogalniceanu" Vaslui
07/2019-06/2023
- Computer Science **competitions**
